STAFFING AND SCHEDULING

The following documents include:

Staffing Supposal 6.26.25

This is a new Letter of Understanding (LOU) to address concerns by both parties related to safe staffing, callouts, etc. The idea of moving staffing concerns to the Master Safety Committee came from 367 Union attorney, Jim McGuinness. It adds a strong enforcement mechanism to ongoing issues in the stores. The idea of an “app” for picking up shifts as a way to deal with both callouts and employees wanting more hours is credited to FM 390 Shop Steward, Executive Board, and Bargaining Team member, Aria Joslyn. These two concepts ended up in the final tentative agreement between UFCW 3000 and Allied Employers. Our team noticed flaws in the above-mentioned agreement and addressed these on 6.26.25. The included document is a superior version in the opinion of our team.

Seniority and Scheduling Supposal 6.26.25

The changes in this document may appear minor, but are actually significant in the prevention and enforcement regarding reduction in hours. 3.7 is of great importance here. It's important for members to come to the eventual presentation/ratification vote to fully appreciate the work that went into this provision, including notes of intention you won't find in the final Collective Bargaining Agreement (CBA).

Unfair Labor Practice(ULP) Strike Authorization:

The negotiation of these documents was a textbook example of how to leverage board charges and a strike authorization. The charges we filed were directly related to staffing and scheduling (failure by the employer to provide information). We informed the employer that we would be terminating the extension at 3 pm on June 26th. We were fully prepared to take members out on a ULP strike, but the employers worked tirelessly with our team to negotiate these terms and avoid an escalation of a labor dispute. The board charges are being withdrawn due to settling this particular issue, and a strike will not be necessary unless there are further contract fights ahead.

Notes: On 6.23.25, Local 367 members and community allies delivered 20,000 signatures to Tacoma and Olympia in support of The Workers' Bill of Rights. Components of the initiative (set for November's ballot) were incorporated into these provisions.

(NEW) LETTER OF UNDERSTANDING – STAFFING

General Staffing

As provided for in Article 3.7.1 of this Agreement, “the Employer may arrange weekly work schedules to accommodate the needs of the business.” The Employer agrees to maintain reasonable staffing levels at all times to ensure the efficient operation of the store, the health and safety of employees, and the quality of customer service. Staffing decisions shall take into account the store’s operational needs, customer volume, and other factors affecting store performance, including but not limited to peak hours, seasonal fluctuations, and special promotions. The subject of staffing addressed by the Master Safety/Staffing Committee will include the hiring of new employees.

Consultation and Communication

The Employer shall provide the Union with the opportunity to review staffing reports upon request. The Employer agrees to discuss with the Union in a timely manner if there are significant concerns regarding staffing levels at a store or stores. Staffing shall be a standing agenda item on the Master Safety Committee's quarterly agenda. The Master Safety/Staffing Committee will meet within ten days of a request by either party, and no less than once per quarter, to review staffing and other workplace matters.

The Committee shall explore methods to address the staffing concerns of both parties, including ways to address various concepts, which will include:

Nothing herein shall be construed as a guarantee of daily or weekly hours of work or pay for time not worked. It shall be the obligation of the Employer to promptly investigate alleged abuses upon presentation and to rectify such abuses when justified within the meaning of this section. The Employer shall offer unallocated hours to existing employees. This provision shall apply to employees covered by LOU # 10. Scheduling LOU Clarifications

(NEW) Clarification #4:

During the Select-A-Schedule process for the Front End and Produce shifts:

Employees shall be allowed to select two shifts in a day, so long as the total compensated time does not trigger overtime. As the employee will be choosing that schedule and the Employer is not assigning that schedule, Articles 5.4 (minimum time off between shifts) and 5.10 (no split shifts) will not apply in that circumstance.

Where two available shifts are close enough together where one of the shifts can be adjusted by fifteen (15) minutes or less to make one shift (without triggering an overtime obligation), an employee will be allowed to select both shifts. The nature of the adjustment of one of the shifts to make it into one combined shift will be at the discretion of the manager.

(NEW) LETTER OF UNDERSTANDING – RETAIL THEFT

The parties agree that retail theft is a challenging issue for all parties. The purpose of this LOU is to set forth some general parameters for how the parties will deal with the issue of retail theft and any discipline for employees who violate policies relating to the handling of retail theft

1. Policies. Each Company has a policy or policies that relate to retail theft, confronting potential shoplifters, employee safety, etc. Employees are expected to follow that policy. The Employers and the Union will continue to work together to highlight these policies and the expectations under those policies. Nothing in this LOU waives any right of the Union, including to challenge the reasonableness of Employer policies, the application of facially reasonable Company policies, or to bargain over changes to those policies.

2. Discipline for violating policies. For employees who have passed their probationary period, discipline will be subject to the just cause standard. Discipline cases involving retail theft tend to be heavily fact-specific. The just cause analysis should take into account defenses as well as mitigating and aggravating facts relating to the incident. Within that context, the parties agree on some general principles to guide the just cause analysis:

A. No employee will be disciplined solely for the resulting loss due to shoplifting that occurs during their shift.

- However, employees are still responsible for abiding by the Employer's other policies (e.g., cash handling policies). For example, if an employee commits a cash handling error by handing a check back to a customer (i.e., failing to collect payment for a transaction), the employee may still be subject to discipline under the Employer's regular cash handling policies. On the other hand, if a customer refuses to pay and shoplifts an item, the employee will not be disciplined for the loss created by the shoplifter.
- Of course, A. above does not apply if the employee is involved in the underlying act (e.g., employee theft, sweet-hearting, etc.).

B. The Employer will apply progressive discipline for violation of a retail theft-related policy except in cases where the employee engages in physical contact (other than minor or incidental contact) with the shoplifter or there are other significant aggravating facts.

The level of progressive discipline will depend on the underlying facts, consistent with the principles of just cause.

C. There may be other defenses as well as mitigating and aggravating factors that will impact the just cause analysis and appropriate level of discipline, including in cases involving physical contact. Some examples:

- If an employee's actions are pursuant to the specific directive of a manager or law enforcement, such a fact may constitute a defense to discipline and/or may constitute a significant mitigating factor.
- Defense of self or others.
- If an employee's action shows evidence of racial discrimination or discrimination based on a protected status/class (e.g., racial profiling), such a fact may constitute a significant aggravating factor.

3. The parties will work in good faith through the Master Safety Committee to address issues that relate to retail theft, confronting potential shoplifters, and employee safety. These discussions will include best practices to train and prepare employees on non-engagement, anti-bias, and de-escalation techniques.

(NEW) LETTER OF UNDERSTANDING – IMMIGRATION ISSUES

The parties have a mutual interest in issues of immigration, citizenship, and work authorization as they impact bargaining unit members.

Protection of Rights During Workplace Immigration Enforcement:

1. Unless required by the law, the Employer will not allow agents of DHS or ICE to access any non-public area of the worksite without a warrant; provided, however, that no employee will be expected or permitted to physically block or stop someone entering.
2. Unless required by law, the Employer will not generally waive the current 3-day period to produce I-9 related documents in response to a Notice of Inspection, as may be modified from time to time.

Ongoing Communication Regarding Immigration Issues:

1. The parties will add immigration issues/update to the regularly scheduled Master Safety Committee meetings.
2. Employers will keep the Union updated if there is any change in Employer policy or protocol relating to immigration issues.

Expiration of Documents and Leaves of Absence:

1. Employees who need a leave to deal with immigration issues will have access to the current leave benefits under the CBA and/or Employer policies.

Notwithstanding any provision of this Section, the Employer will comply with all applicable laws. The Employer will cooperate with the Union to provide employees with access to Citizenship Assistance through the UFCW Union Citizenship Access Network (UCAN) program.

(NEW) LETTER OF UNDERSTANDING – SRT FUNDING AGREEMENT REGARDING PARTIAL WITHDRAWAL LIABILITY

The Employer and the Union agree that if contribution base units reported for the Employer to the Sound Retirement Trust (SRT) drop by at least 55% instead of the current SRT policy of 70% for assessing partial withdrawal liability and the SRT enters the Yellow Zone or Red Zone while the collective bargaining agreement is in effect, the Employer incurring at least such 55% reduction to the SRT will agree to a Funding Improvement Plan (FIP) or Rehabilitation Plan (RP), as applicable, that provides additional monthly contribution on top of the adopted RP or FIP schedule that is equal to the monthly partial withdrawal liability payments that would have been assessed had the Retail Food Rule been adopted by the trustees.

The parties further clarify:

The overall intent of this Funding Agreement is to act as a supplement to the Plan's current withdrawal liability rules. In general, all other aspects of the law should apply, unless expressly agreed otherwise in this LOU.

If, after triggering the 55% reduction threshold, the Employer's hours subsequently improve such that the trigger would not be met the following year, the special funding required above would cease unless the Employer subsequently again triggers the 55% threshold in a subsequent year.

Any amounts paid pursuant to this Funding Agreement shall not be treated as "employer contributions" or affect the "highest rate" for any subsequent calculations under this Funding Agreement or for an actual withdrawal liability (complete or partial) calculation.

If the Employer's hours continue to decline such that the 70% trigger is reached under the SRT's current partial withdrawal policy (and ERISA), the special funding required under this Agreement will cease, and the legally required payments under the Trust's withdrawal liability policy (and ERISA) shall apply instead. In that instance, to the extent allowed by law, the Employer should be credited for payments made under this special funding agreement as if they were withdrawal liability installment payments.

If the Employer sells a store or stores to another employer and the buying employer agrees to continue participation in the SRT in an ERISA Section 4204 sale of assets, the reduction in hours due to that sale will not count in the calculations referenced above.

With this LOU, the parties agree that the deadlocked arbitration relating to the adoption of the Retail Rule is fully resolved, and the underlying deadlocked motion is withdrawn. So long as this LOU is in place, the Union agrees it will not advance or support a motion to adopt the Retail Rule on the SRT.
